The Audacy Push-Button Combination Switch permits onsite employees to instantly adjust their lighting environment to the purpose at hand with up to 4 physical preset scene settings and up to 16 virtual scene settings on the Interface.

**MORE CONTROL - LESS FUSS**

A time and energy-saving alternative to the traditional hard-wired switch, the Audacy® Push-Button Combination Switch allows you to quickly "set the scene" with pre-calibrated settings for a particular room and also allows you to turn on, turn off and dim lights. Instantly adjust lighting to fit how you’ll use the space with presets such as Presentation Setting for viewing a screen or Work Setting to maximize lighting for reviewing important documents.

**DOUBLE-EDGED EFFICIENCY**

Operating in the highly reliable 915 MHz spectrum, our Combination Switch is wireless and easy to install anywhere in the room, delivering unparalleled flexibility while saving time and money.

The Audacy Push-Button Combination Switch helps you comply with ASHRAE 90.1-2016 and CA Title 24 requirements.
