IMPORTANT SAFEGUARDS
When using electrical equipment, basic safety precautions should always be followed including the following:

READ AND FOLLOW ALL SAFETY INSTRUCTIONS

1. DANGER: Risk of shock - Disconnect power before installation.
   DANGER – Risque de choc – Couper l'alimentation avant l'installation.
2. This luminaire must be installed in accordance with the NEC or your local electrical code. If you are not familiar with these codes and requirements, consult a qualified electrician.
   Ce produit doit être installé conformément à NEC ou votre code électrique local. Si vous n’êtes pas familier avec ces codes et ces exigences, veuillez contacter un électricien qualifié.

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

TO INSTALL:

1. Push The Connected Connectors Inside Luminaire

LUMINAIRE INSTALLATION

STEP 1:
Attach LS luminaire to mounting surface.

STEP 2:
Attach the connectors from adjoining luminaires and push the connection into the luminaire. See Figure 1.

STEP 3:
Push the two adjoining luminaires against each other as shown in Figure 2.

NOTES:
• Available luminaire length are 4’ and 8’.
• Suitable for Damp Locations
• Designed for use in 120-277V 60Hz protected circuit (fuse box, circuit breaker). Supply wire size as per NEC or governing code(s), 90C rated.
**ELECTRICAL CONNECTIONS**

**STEP 1:**
Make the following Electrical Connections:

For 120-277V applications make the following Electrical Connections:

- a. Connect the black luminaire lead to the line supply lead
- b. Connect the white luminaire lead to the neutral supply lead
- c. Connect the green or green/yellow ground lead to the supply ground lead
- d. If Dimming is an option; connect the violet dimming positive lead to the supply dimming positive lead. If dimming is not being used, ensure to cap off the violet lead.
- e. If Dimming is an option; connect the grey dimming negative lead to the supply dimming negative lead. If dimming is not being used, ensure to cap off the grey lead.

**STEP 4:**
Place the Joint Aligner (LS-RJ) over the two adjoining luminaires. Line up the mounting holes on the bracket with those on the luminaire. See Figure 3. Secure the Joint Aligner by inserting the (4) supplied screws as shown in Figure 3.

**STEP 5:**
Continue Steps 1-4 until all luminaires are installed.

**STEP 6:**
On the last luminaire in the row, push the connector into the luminaire and insert (2) plastic knockout covers as shown in Figure 4.

**STEP 7:**
Make wiring connections per “ELECTRICAL CONNECTION” section, to the first luminaire in row. Cut off plug and make wire connections inside luminaire end with dimming wire compartment. Dimming connections must be made in the dimming compartment (See Figure 5), line connections made outside compartment.
