LIGHTING THE WAY TO LOWER MAINTENANCE COSTS

Cree® LED lighting is engineered to exceed the demands of the most challenging industrial and warehouse facility spaces. With proven quality and performance, Cree LED products deliver long-lasting, energy efficient lighting that is virtually maintenance free, which frees you up to focus on your productivity and operational goals.

HELP INCREASE PRODUCTIVITY WITH BETTER LIGHT

Cree® LED lighting offers higher quality light and more energy efficiency—something not possible with traditional technology. Better quality lighting means uniform light all down the line, enabling your employees to focus on the task at hand while minimizing the possibility of accidents on the manufacturing floor.

DON’T LET LIGHTING GET IN THE WAY OF 24/7 OPERATION

Engineered for long life, your Cree lighting system will last well beyond traditional two- and three-year maintenance cycles, reducing costs and eliminating unplanned downtime from replacing lamps and ballasts. With Cree® LED lighting, you can stop budgeting for line interruptions and start utilizing those funds to optimize your core operations.

DON’T OVERLOOK YOUR EXTERIOR LIGHTING

Outside your facility, excellent lighting is critical. Whether it’s parking lots, loading docks or pathways, Cree® LED assists with safety and security by creating well-lit spaces and clear lines of sight. Cree® LED lighting solutions provide superior performance to keep the outside of your industrial site running as efficiently as the inside.
ULTRA-EFFICIENT LIGHTING BACKED BY AN INDUSTRY-LEADING LIMITED WARRANTY.

Cree® LED luminaires are designed for long life and will last much longer than conventional lighting, which equates to fewer replacements over time. Designed with ease of installation in mind, Cree® LED lights can work as direct replacements for your facility's incumbent lighting to transform your space from poorly-lit to a uniformly, brilliantly-lit space that is virtually maintenance free.

Top Selling Products for Industrial Spaces

1. KBL Series High-Bay Luminaire
2. ZR Series Trolley
3. LS Series Linear
4. CPY Series Canopy
5. OSQ Series Area
6. XSP Series Wall Pack

KBL Series High-Bay Luminaire
- Delivers 18,000 and 24,000 lumens
- Visually comfortable optics
- Up to 150 lumens per watt
- 0-10V dimming to 10% or multi-level occupancy
- IP65 optical assembly
- Operating temperature range: -40°C up to 50°C

LS Series Surface Ambient
- 90 CRI or 80+ CRI
- Deliver up to 10,000 lumens
- Efficacy up to 130 lumens per watt
- Dimming: 0-10V to 5%
- Occupancy sensor and thru-wiring available

OSQ Series Area
- 70 and 80 CRI
- Deliver up to 27,103 lumens
- Efficacy of 139 lumens per watt
- cULus listed
- Versatile mounting

* Payback and energy savings are based on the national average electricity rate, recommended maintenance schedule, and typical maintenance costs over a 50,000 hour (11.4 year) assessment period (application life).
