IMPORTANT SAFEGUARDS

When using electrical equipment, basic safety precautions should always be followed including the following:

READ AND FOLLOW ALL SAFETY INSTRUCTIONS

1. **DANGER** - Risk of shock - Disconnect power before installation.
2. **DANGER** – Risque de choc – Couper l’alimentation avant l’installation.
3. This luminaire must be installed in accordance with the NEC or your local electrical code. If you are not familiar with these codes and requirements, consult a qualified electrician.
4. Check to make sure that all luminaire connections have been properly made and the luminaire is grounded to avoid potential electrical shock.
5. DO NOT handle energized luminaire when hands are wet, when standing on wet or damp surfaces, or in water.

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

TO INSTALL:

**STEP 1:**
Attach and fold the two 6 1/8” long gaskets V-notch to the edges of the driver box, on both the front and back of the driver box. Gasket are unique per each side and can not be interchanged. See Figure 1.

**STEP 2:**
Attach three 3 1/8” long gaskets to the short sides of the driver box as shown in Figure 2.

**STEP 3:**
Attach two 1.75” gaskets with a slit cut in the middle to the front of the driver box as shown in Figure 3.
STEP 4: Apply four round gasket to the knockouts on the driver box as shown in Figure 4.

STEP 5: Apply four 1.75” long gasket with slits on to the Emergency Driver box edges (if equipped), if no Emergency Driver box exist discard these 4 pieces. See Figure 5.
