IMPORTANT SAFEGUARDS

When using electrical equipment, basic safety precautions should always be followed including the following:

READ AND FOLLOW ALL SAFETY INSTRUCTIONS

1. **DANGER** - Risk of shock- Disconnect power before installation.
   **DANGER** – Risque de choc – Couper l’alimentation avant l’installation.

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

TO INSTALL:

**PREPARATION**

**STEP 1:**
Insure electrical power is disconnected from luminaire.

**PROCEDURE**

**STEP 1:**
Install the clips on the troffer in the holes as shown in the Figure 1. Secure clips to troffer using (2) #10-32 screws provided, clips have extruded threaded holes. The clip should be mounted on the back side of the troffer edge as shown in Figure 1. Torque the screws to 30±3 in-lbs.

**STEP 2:**
Install the second clip similar to step 1 on the troffer’s long side. See Figure 2.

**STEP 3:**
Install the other 2 clips on to the T-Grid in the ceiling as shown in the Figure 3 and 4, at approx. 61 mm from the Cross T-Grid.
STEP 4: Install the Troffer from Step 2 in to the ceiling T-grid as shown in the Figure 5.

STEP 5: Hold the troffer with one hand after hanging it from 2 clips in Step 4. Then align and install the troffer on to the clips from Step 3 as shown in the Figure 6. Clips have an extruded hole feature and can be used for aligning the holes in the troffer for screw installation.

STEP 6: Install the screws into the clips installed in Step 5. Repeat the process for the 4th clip. Torque the screws to 30±3 in-lbs. See Figure 7.
