

CAUTIONS AND WARNINGS

40/60/75/100W & 3-Way Replacement A19/A21

- Not intended for use with emergency exit fixtures or emergency lighting.
- Risk of electric shock or burns. Turn power off and let cool before inspection or replacement. Do not open – no user serviceable parts inside. Use only on 120 volt AC circuits.
- Do not use if product is cracked, broken or missing, even if lamp continues to light.
- Suitable for use in operating environments between -25°C and +45°C (-13°F and +113°F).
- Suitable for damp locations, but not for use where exposed directly to weather or water.
- Do not use in enclosed fixtures or recessed cans.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
