The Difference You Can See. The Payback You Expect.

Whether you’re looking for an inviting site or a well-lit parking garage, Cree Lighting can formulate every solution to meet your unique lighting needs. LED luminaires can dramatically improve visibility and put your facility in a whole new light — making outdoor areas safe and secure while reducing your operating expense.

Illuminate Your Brand
With optimum illumination and unobtrusive architectural blending, exterior Cree Lighting provides exceptional architectural appeal using crisp cool or warm light with superior color accuracy and consistency. Creating the right first impression of your facility is simple with the Cree Lighting difference. See your venue shine in a brand new light!

Safety for Everyone
Lighting can play a critical element in shaping visitors’ perceptions of safety and with our high performance LED luminaires; you can create a difference that you can see. Patented NanoOptic® Technology provides precise, uniform illumination; eliminating dark spots between luminaires to help create a safer environment for vehicle and pedestrian traffic.

Dramatic Savings
In addition to over 70% energy consumption savings when compared to traditional metal halide fixtures, most Cree Lighting luminaires have virtually no maintenance costs for over 10 years. Combine this with a 10-year industry leading warranty and you have a solution that will yield dramatic savings in both dollars and maintenance hours over the life of the installation.
